ARMAND ROBINSON

Orlando, FL   https://armandrobinson.netlify.app/   armand.robinson20@gmail.com   804-299-0532

Miami, Florida	**Florida International University**	**May 2025**

- **Major:** Computer Science, B.S. (in-major GPA: 3.0)
- **Programming Coursework:** Algorithms & Data Structures, Discrete Structures, Programming II

TECHNICAL PROJECTS

Personal Website: https://armandrobinson.netlify.app/ (for additional information and projects)

Mental NT - MERN (2023) Live Site
- Developed a MERN Notetaking App with user registration and login functionality, employing JWT and Passport.js for secure authentication.
- Implemented CRUD operations, allowing users to create, edit, and remove notes from their accounts.
- Leveraged MongoDB as the database for efficient data storage, retrieval, and ensuring scalability.
- Designed an intuitive and visually appealing user interface for note taking and enhancing user experience.

Rite Advantage - React (2023) Live Site
- Created a visually appealing website using React, showcasing expertise in user interface design and front-end web development.
- Employed SASS and JS to create a stylish and responsive web design, enhancing the website's aesthetics.
- Used Figma to translate design concepts into visually stunning and functional web applications.

Hotel Mahi - API (2023) Live Site
- Designed and Developed a React website that displays hotel information using a custom API I created to fetch and display hotel information on the website.
- Utilized MongoDB as efficient data storage and retrieval, as well develop a RESTful API using Express.js.
- Created a user-friendly interface using React, enhancing user experience and usability of hotels information displayed.

VOLUNTEER EXPERIENCE

SUN RZE Academy (2023)
- Created a STEM academy where I conduct workshops teaching 15+ kids from the city of Richmond, VA about technologies like Web Development, Web 3, UI Design, AR/VR, 3D Modeling, and much more.

CERTIFICATES

NuCamp Full-Stack Web & Mobile Development Certificate	**February 2022**

- 17-week program that teaches Frontend, Backend, and Mobile Development
- Using technologies such as Bootstrap, React, React Native, Node, MongoDB, Mongoose, SASS, JavaScript, Node, and Git.

freeCodeCamp Front End Development Libraries Certification	**June 2023**

- Bootcamp program that teaches Bootstrap, CSS, Sass, React, Redux, and jQuery.

freeCodeCamp Back End Development and APIs	**August 2023**

- Course on NPM, Node, Express, MongoDB, Mongoose, and APIs.

SKILLS

- **Demonstrable skills with:** HTML, CSS, SASS, JavaScript, React, Node, Express, MongoDB, Mongoose, Git, Bootstrap, Java, Python, and Figma
